**Firm To Be Selected  
By Aldermen Group To  
Design Treatment Plant**

(Related Story on Page 3)

Appointment of a four-man aldermanic committee Thursday night resulted in dismissal of the three-engineering firms. The committee for pollution abatement and drainage.

The four-aldermen committee, headed by Frank Vesci of the Eighth Ward, has been designated an "emergency pollution study" group by Mayor Davis. The members are in the process of interviewing representatives of seven engineering firms for design of a sewage treatment plant.

Special meetings of the committee are to be held to confer with engineering firm representatives, and it is expected several weeks will be needed to do the job. "We'll meet as often as necessary," Vesci said.

**No Cost Estimate Yet**

It was learned this morning from City Atty. John Gitchell that a method of financing the sewage treatment plant has not been decided. He explained no cost estimate is yet available, but that he had heard of figures ranging from \$1,500,000 to \$2,000,000 and also a figure of \$2,900,000.

"If general obligation bonds are to be sold to finance the construction, an election will be held. It may possibly be held before the end of the year," Gitchell explained. Should the council decide upon revenue bonds, an election would not be necessary, he added.

Council members were unable to decide definitely on the status of the Citizens' Committee during Thursday night's special session. However, Mayor Davis said he is home recovering from major surgery, was reached by telephone, Friday morning. He

## Severely Beaten GC Man Relates Details To Police

A man who severely beat Gus A. Ledergerber, 42, of 2532 Circle drive early Saturday in Eagle Park Acres is being sought today by Madison police, who questioned the seriously-injured man last night at Barnes Hospital, St. Louis.

The man, a Negro, followed him out of the Village tavern, an establishment operated by Allen Glasper at 217 Roosevelt drive, Ledergerber related. As they were walking along a roadway, the man suddenly began beating Ledergerber about the head with his fists, Madison officers were told.

Though he did not remember being placed in a car, police believe he was driven to a ditch between two sets of railroad tracks on Race street, just inside the Madison city limits and near the east gate of Laclede Steel Co.

Unconscious from multiple abrasions and contusions to the left side of the face, a brain concussion and possible skull fracture, the Engineer Depot employee, who is unmarried, was brought into the weeks about 12 feet from Race street. He had a large bruise under the left eye and deep cuts and a hematoma on the forehead. The right eye was swollen shut.

Police did not pinpoint the time of the beating and were unable to say how long the tavern had remained in operation. Ledergerber had gone there at 11:30 p.m. Friday with a friend, a Madison man who later left. He continued drinking, and it was during the early morning that he left the tavern.

Several minor disputes had occurred in the tavern, police learned, and Ledergerber, who was walking, was turned over to the tavern proprietor and taken to the police station. It contained \$5 and papers.

An unidentified cop saw Ledergerber lying in the gutter about 18 to 24 inches high and notified Hurlburt Fleming, a Laclede guard, who summoned aid at 7:45 a.m. Saturday. Taken by ambulance to St. Elizabeth Hospital, the then-unidentified man was taken at 10 a.m. Saturday to Barnes. He regained consciousness during the morning.

Everything had been removed from Ledergerber's clothing, but police traced his identity through laundry marks in the jacket and trousers.

About 30 persons have been questioned in the investigation.

## Granite City Men Rescue Five Persons From River

Two local men saved the lives of five persons Thursday night after a boating accident on the Mississippi River.

Eugene Huffstutler, 55, and Lawrence Walkenbach, 54, of Rural Route One, plucked the distressed victims from the water about 7:45 p.m. when they drifted over two hours clinging to their overturned boat.

Mrs. Hazel M. Payne, 43, of Roxana, was admitted to Wood River Township Hospital in severe shock due to exposure. None of the others required treatment.

They were her husband, James Payne, James Vondra of Wood River, owner of the boat; William Gray of Wood River; and his son, Brett, 2 1/2.

Huffstutler, who lives on the river bank, heard shouting in the dark. He ran to the home of his neighbor, Walkenbach, who owns an 18-foot cruiser. The two

men put out in the boat and made the rescue.

They found the victims clinging to the overturned 14-foot aluminum boat, a dog belonging to one of the victims was riding on the boat. The smaller craft was taken in tow.

A barge took the victims to the Bow Line boat club where an ambulance was waiting. A 5:30 p.m. shortly after the group embarked near Hartford. They told Illinois State Trooper Robert Olan they were closer to the Missouri side than to this side when a strong wind came up suddenly causing large waves.

The boat was caught by a wave and overturned. All were wearing life jackets.

They floated several miles downstream before being rescued.

## Burglars Gather \$700 Cash At Homes Here

**Pistol, \$600 Stolen  
From Home In Madison;  
Other Thefts In Area**

More than \$700 in cash was taken in two separate house burglaries in the Quad-Cities over the weekend, according to reports from local police. Among other items taken was a foreign-made pistol.

Madison police said the home of Vasil Zaikos, 60, of 1227 Madison avenue was ransacked between 7:45 and 9:15 p.m. Friday. About \$600 in \$20, \$10 and \$5 bills was taken, although bonds worth \$2600 at first thought to be missing later were found.

Zaikos told authorities he arrived home and found his door unlocked. He said the entire house had been ransacked, clothing was scattered, bed clothes removed, chest drawers emptied and pots and pans removed from the shelves.

The \$600 was in a coffee can. Zaikos said he had just cashed his checks and planned to take the money to a bank. A cup containing change also was taken, along with a pocket knife, bank books, a Granite City Steel Co. pass and a loaded .38 caliber Italian Beretta pistol.

Police said a pry bar apparently was used to force open the back door of Zaikos' home, which is used as the main entrance. Exit apparently was made by the front door. It was reported.

**\$138 House Burglary**

A brazen burglar raised a window at the home of Robert Jones, 1656 Fourth street, Madison, Friday night and climbed over Jones' sleeping children to enter the dining room. There, he removed \$110 from Jones' wallet, replaced the wallet in a pair of trousers and took a woman's black purse containing \$28, a boy's 11 dark brown

## 11 Persons Injured In Six Of 24 Weekend Accidents

Accident injuries were suffered by 11 persons in six of 24 traffic accidents reported in the Quad-City area during the weekend.

Earl Horn, 16, of Collinsville, was admitted to St. Elizabeth Hospital last night after the auto in which he was a passenger was involved in an accident. He later was transferred to Barnes Hospital, St. Louis, with a possible

skull fracture and cuts to the forehead.

The auto jumped the curb at Namek road and Amos avenue and sheered off a utility pole, breaking it in three places. The accident happened about 10:20 p.m.

Charles Robertson, 20, of Collinsville, pleaded guilty to the charge of reckless driving this morning. Police Magistrate Gasparovic took the case under advisement until Oct. 24. Robertson pleaded not guilty to charges of having no state auto plates, leaving the scene of an accident and illegal transportation of alcohol and was released on \$300 property bond.

Because of the confusion as to who was driving, similar charges were placed against Charles A. Renfroe, 41, also of Collinsville. He pleaded not guilty to all charges and was released on \$150 property bond until Oct. 24.

## Backers Urged To Attend Hearings On County Zoning

Attendance at public hearings on the Madison county zoning proposal was urged during the weekend by Chester L. Baker, Chamber of Commerce president.

He noted that hearings are scheduled for 3 p.m. Friday in the council chamber of the city hall in Granite City and 3 p.m. Tuesday, Oct. 23, at the Madison recreation center.

"Your help is needed to help make the much-needed county land use and zoning plan a reality," Baker commented. "Your support is urgently needed at this time. Your very presence will help tremendously. A handful of opponents of the vital program have attended every hearing to date to create the impression there is considerable grassroots opposition to the plan."

Baker pointed out that "the board of Southern Illinois University has halted construction of the \$25 million campus near Edwardsville because it does not feel it can risk moving ahead on the project until zoning legislation is provided."

Other report meetings are set for Oct. 18, 22, 23, 30 and Nov. 1. All will be 6:30 p.m. "Dutch" trust dinner meetings at the YMCA.

The campaign officially got under way Friday night, following a public rally at Teen Town in the YMCA basement. A major outdoor event had been planned but had to be canceled because of rain. It was planned to block off Niedringhaus avenue from 6-7 p.m. and present a program of entertainment in front of the post office.

The Coolidge Junior high school Latin American Ensemble, under the direction of Robert D. Todoroff, entertained a limited crowd with a half-hour program of music.

The rest of the planned program was canceled.

**Nautical Theme**

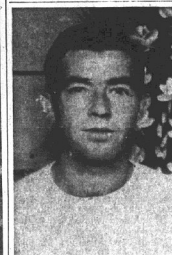

In keeping with the nautical theme of the campaign this year, two large billboards have been constructed on the post office lawn in the shape of a ship's prow. They are to be decorated.

An anchor will be hauled up behind, indicating the progress being made.

When the anchor is all the way up it will indicate the goal has been reached.

## Grand Jury To Get Data Fatal Shooting

SHOOTING VICTIM—Cleo E. Lemons, 40, of 2010 Fifth street, East Madison.

Grand jury evidence is to be presented early this week in Saturday's fatal shooting of Cleo Lemons, 40, a service station mechanic, in the parking lot of Joseph Lesko's tavern, 608 McCabridge avenue.

Apprehended yesterday in Mountain Grove, Mo., Donald Patterson, 22, of 2026 Fifth street is charged with whirling and firing three shots from a .22-caliber pistol after Lemons struck him on the head with a beer mug.

Lesko was charged Saturday with violating the county tavern closing law by ignoring the 1 a.m. deadline. It was during drinking at the tavern that the dispute started.

Questioning of witnesses showed that the argument began apparently harmlessly when Patterson and Lemons' nephew, Junior "Sonny" Lemons, 35, also of 2010 Fifth street, could not agree over who was to pay for a round of drinks. Both claimed the right to make the payment.

**Beaten By Man's Nephew**

The two are said to have gone outside to the parking lot, where Junior Lemons got the best of a fist fight, inflicting bruises about Patterson's head. Patterson then allegedly went to his nearby home and obtained the chrome-plated weapon.

While looking for the younger Lemons on the parking lot, Patterson was struck with the beer mug by Cleo Lemons, turned and shot him at 2:30 a.m. while he was in the abdomen.

Lemons, wounded in the left side of the head, left shoulder and right side of the abdomen, was rushed by ambulance to St. Elizabeth Hospital, where he died at 5:10 a.m. Saturday.

Patterson left in an auto and was named in a murder warrant issued Saturday by the Peace Harry E. Hartman on the complaint of Assistant State's Attorney Joseph Bartyjak.

**Waves Extradition**

County authorities learned from a relative that Patterson had gone to Mountain Grove, and he surrendered there at 4:15 a.m. Saturday to Deputy Sheriff Tony Petrillo. Waiving extradition, he was brought to St. Elizabeth Hospital, where he is still in custody today.

Dates of the preliminary hearing, arraignment and extradition quest by Deputy Coroner Francis Lacey have not been set.

It was learned that Patterson last weekend at the home of his grandmother in

## Final Hearing Tomorrow In Water Rate Case

(Special from Springfield)

Completion of hearings on an application by East St. Louis & Interurban Water Co. for higher service rates in this area is scheduled for tomorrow. The utility will then have until Oct. 27 to file briefs. Oral arguments will follow before the full commission with a decision to be reached within a month.

Martin Dolan, who has presided at nearly 25 commission hearings, said he expects to consult with Commissioner James Warner this week to set a date for the arguments, possibly the week of Nov. 12. Two commission witnesses are to testify tomorrow. Then the case will be declared heard and taken.

The two witnesses will be James Morris, an accountant for a consultant firm for the ICC, and Robert J. Wier, licensed engineer. They will testify regarding replacement costs for the utility's plant.

Miss Suzanne Bohnen, also a commission consultant, concluded her testimony Thursday. She said the company's replacement estimates were about a million dollars too high.

The water company is seeking a 47% boost in water rates for an estimated \$1.5 million increase in annual revenue for replacement of its present system and works. The original application was filed last Dec. 28. A commission spokesman said the case was set for a hearing the week of Nov. 26 or the new rates, begin automatically.

## The Downstate Fisherman

(Compiled by the Southern Illinois University Information Service from area reports)

The fishing tribe is up and moving in most southern Illinois impoundments.

With the puzzling exception of Crab Orchard Lake, bass are definitely aroused and prowling particularly at Lake Murphysboro where the best run of the season seems to be underway. In fact, the few resolute sportsmen who stayed with Murphy through a trying month are now rewarded for their patience. Channel cat, redear and crappie are all hitting.

Mike and Carlo Riggio, Murphysboro brothers, have done the most impressive scoring. Mike with three three-pounders, Carlo with a six and one-half pounder and five pounder on a jig and worm. John Reeder, Murphysboro, hooked a 15-pounder, and a four-pound bass on a Lacy live and Helen Jacobs, Murphysboro, nailed a four-pound channel cat on worms. Roy Mitchell bagged three crappie totaling four pounds. Mert Kiser and Ed Horshorse Lake in Southern Illinois. The lake is playing host lately to only the most unwary angler, is paying off too. Carbondale's Pete Wissinger and Fred Adelson of Cairo caught 250 strips and crappie in four trips. Don Burns and Peter Clark of Cairo have been doing almost as well. Scattered reports of good sized bass are heard here and there but one thing holding this back is a rampant "duck moss" growth which now covers about 60 percent of the lake.

He has been an employee of American Steel since 1936.

## Canvass Of Special Election Adds 5 To 'No' Vote Total

Canvassing the returns of the Oct. 2 special drainage-pollution election Thursday night, Granite City aldermen noted nearly 10% of the 7661 ballots were spoiled.

The canvass changed the unofficial tally by an additional five "no" votes. These were added in the 11 Precinct in West Granite.

The official totals were 2475 "yes" votes and 4482 "no" votes. Spoiled or defective ballots totaled 794.

The canvass was conducted differently than in the past. This time aldermen called out the vote tallies in precincts of their wards. These were tabulated by City Atty. John Gitchoff and inserted in the election resolution which was later approved.

In the past, the tallies were taken from the master chart compiled by the city clerk.

The canvass took nearly 45 minutes.

**Suggests Voter Instructions**  
Alderman Mrs. Gabrielle

Bellevue suggested the city promote an educational program for voters to reduce the number of spoiled ballots.

It was pointed out there were 110 spoiled ballots in one precinct, No. 11, and in others there were as many as 30, 40 and 50. There were precincts with five or six spoiled ballots.

No action was taken on the alderwoman's suggestion.

Other aldermen stated the ballot was confusing because of the size of the boxes for the "X's" and the shapes of the boxes.

City Atty. John Gitchoff remarked that the number of ballots on a special proposition usually is higher than on a candidate ballot.

On election night, when polling place judges were returning their supplies to the city clerk's office, several commented that voters had written "yes" or "no" in the boxes.

Others said "X's" were placed beneath the "yes" or "no" rather than in the proper box.

U.S. SEN. EVERETT M. DIRKSEN of Pekin, Ill., addressed a group of about 75 persons Saturday afternoon at Belmore Village shopping center. On the stand are (left to right) Kurt Glaser, 24th District Republican candidate for Congress; Earl Pollock, candidate for clerk of appellate court; Ralph T. Smith, incumbent state representative and candidate for re-election; William C. Stroube, candidate for Madison county sheriff; Dale Hyle, candidate for county judge; and Robert T. Byrne, candidate for county clerk.

### CYC Convention Held In Litchfield

The annual convention of the Catholic Youth Council of the Springfield Diocese was held Saturday and Sunday at Litchfield and was attended by 18 Quad-Cityans.

The official delegates were Jack Range and Nancy Vrenick of Sacred Heart Church and Jan Stenhaus and Virginia Judd of St. Elizabeth's Church.

The sessions were attended by 198 persons, and John Wand of Litchfield, brother of Rev. William Wand, formerly of the local Sacred Heart parish, was elected president.

### Woman Shoved, Face Badly Cut By Tavern Door

Multiple facial cuts were suffered by Mrs. June Clymer, 1742 Popular street, at 10:45 p.m. Saturday when she allegedly was pushed through door glass at the El Rancho tavern, 1413 Second street, Madison, by her husband, Sidney Franklin Clymer, 29.

Rushed by ambulance to St. Elizabeth Hospital, she was transferred to Barnes Hospital for facial surgery.

The two had gone to the tavern separately and a brief argument preceded the injury, police said. Charged with aggravated assault, Clymer was released on a property bond to appear at 10 a.m. Oct. 27.

### Sen. Dirksen Assails Policies of Democrats

Granite City's Belmore Village shopping center was one of several stops Saturday for U.S. Sen. Everett M. Dirksen, Republican candidate from Pekin, Ill., who is seeking re-election.

A group of about 75 persons gathered to hear the senator attack U.S. policies at home and abroad.

He claimed the United States government, under the Democratic administration, "is making progress, but in the wrong direction."

He blamed the Democrats for the Berlin wall which he said "was not there when Dwight D. Eisenhower was in office" and for refusing to give air support to the abortive attempt by Cuban nationalists to invade their homeland and overthrow Castro.

"This administration has not conducted very successful foreign affairs," he said.

For domestic affairs, he pointed out the increased number of government employees but claimed, percentage-wise, the unemployment rate has not decreased under the Democrats.

He claimed more businesses failed, last year than ever before and foreclosures were made by government agencies on 88,000 homes.

### 'Double' Events For New Father

A Granite City man said he is still "pretty excited" today after events last week which might lead him to believe good things really do come in bunches.

Last Tuesday, Mrs. William Brandt of 2113 St. Clair avenue gave birth to a daughter, Stephanie Katherine, at St. Elizabeth Hospital. On the same day the new father was admitted to the bar to practice law in Illinois.

Said Brandt, who completed his law training at Washington University last June after working his way through school as a part-time bricklayer, "It's hard to believe all this could happen in one day."

### Motor Fails; Boat Is Towed To Shore

An unidentified couple and their small child, adrift in the Mississippi river last night after the outboard motor on their small boat failed, reached shore safely when another civilian boat towed their craft to the Missouri shore opposite Venice, the U.S. Coast Guard station in St. Louis reported this morning.

Venice police notified the Coast Guard, but no assistance from the station was required.

## Paoletti's Homer Gives Pocahontas Second Straight Inter-City Crown

Gene Paoletti's two-run eighth-inning homer broke a 2-2 tie and boosted the Pocahontas Braves to their second consecutive playoff title in the Inter-City Baseball league yesterday at Troy.

Pocahontas used Paoletti's blast to score a 4-2 win over Sacred Heart of Granite City in the third and decisive game of the post-season series for the President Vernon Lucas Cup. The Braves scored first in the opening frame when Jim McKean, the hitting star of the cup series with eight safeties in three games, singled, was sacrificed to second by Ed Opich and scored on Jim Reiter's single.

Pocahontas tied the score in the second on back-to-back doubles by Larry Novak and Tom McCasland, and then took a 2-1 lead in the top of the fourth when Novak hit a solo homer with one out.

Double steal Paul Schuler's team tied it at 2-2 in the home half of the

## Brown, Cooper Score In 14-0 MHS Victory

The first half one-two punch of halfback Walt Cooper and fullback Eugene Brown helped Madison and four-goal football victory brought Thursday night in Bethalto, where the Trojans blanked Civic Memorial 14-0 in a Midwestern conference game.

Cooper, despite hobbling shin and knee injuries, racked up 160 yards on the ground against the Eagles, including a 67-yard touchdown jaunt which put the Trojans on top by their final margin midway through the second quarter.

The game's only other score came after Madison had recovered a Civic Memorial fumble early in the first period and driven 47 yards in eight plays, with Brown diving in from the two yard line.

Cooper ran the conversion following Brown's score, and Brown's sack complemented to Cooper after Walt had scored in the second quarter.

Other than the first-half scoring thrusts and a sustained drive which opened the second half but died at the Eagle one when Madison fumbled, the contest was an even battle between two teams who had not yet scored a victory in 1962.

Bethalto, finding big holes in Madison's interior line, out-rushed the Trojans in the second half but fumbled away the ball twice just when Cliff Hoppe's club led like it would mount a sustained drive.

Slusher Intercepts, Receivers  
 Madison's defensive quarterback who plays at offensive halfback, covered the ball in the second half possession. He thwarted another Eagle drive by intercepting Tom Erzen's pass near the back yard line.

Back Larry Nave for a one-yard loss on fourth down when the Eagles needed three for another first down. The Eagles got no closer than the Madison 30 thereafter.

Madison's backfield weight he feels is necessary to make the single wing attack effective. The Eagles ran in the second half of the time Thursday, and the Eagles finally found some running room inside the Madison line in the second half.

Madison was out-rushed in the first half, and Cooper's TD snap came on such an effort with 5:58 left in the second quarter from the Madison 33.

The hobbled Cooper was unable to outrun the last two Civic Memorial defenders, but did a lot of pace changing at the Bethalto 15 to elude them and score over the end zone.

Brown, whose running has added some welcome balance to the MHS offense, totaled 63 yards in 14 carries for a 4.5 average. Cooper's 160 yards (he now has 536 in five games) came on 15 carries for an outstanding 10.7 average per try.

Only One Penalty  
 The two Midwestern opponents very nearly staged a football oddity by playing a penalty-free contest.

No yardage had been walked off against either club until the Eagles were penalized for jumping offside with 1:59 left in the game.

HEADED FOR A FALL is Wood River halfback Dave Barach, who meets up with Granite City defender Ron Yates (91) after turning left end in Thursday's prep football contest at Wood River. Barach scored one of two Oiler touchdowns as Coach Orr Yacum's club recorded a 12-0 homecoming win.

## 12-0 Homecoming Win

## Outplayed Oilers Blank Warriors Where It Counts: On Scoreboard

"We won this one everywhere but on the scoreboard," a chagrined Al Lewis said after his Granite City football Warriors had come up on the short end of a 12-0 score before 3000 homecoming fans Thursday night in Wood River.

The Warriors had just gone down to their third straight Southwestern conference defeat in three games. In none of the three have they been able to muster so much as a single point.

Wood River's first SWC win came on scores by halfbacks Bob Fisher and Dave Barach—and Rick Reutebuch at the GC 35 immediately after the ball had changed hands.

The GC's chances were hurt by the absence of punt returns. Fisher plunged two yards for the game's first score late in the first quarter to cap a sustained march which carried 80 yards. Rich Hakenkamp's kick from placement was wide for a 6-0 score which remained that way until the final two minutes of the third period.

At that point Barach rammed 15 yards off tackle for a decisive PAT try, but was too hot to place. Granite City dominated play between the two touchdowns, pushing the Oiler defense back down the field—until the Red-men roamed to the vicinity of the host team's 20-yard stripe.

From there on it was sticky going, with Wood River throwing up a "thou shalt not pass" sign in the form of a second and sometimes eight-man line.

Granite City could not adjust its offensive blocking to cope with the extra beef, and a statistical rushing advantage was not reflected on the scoreboard.

Wilfong Effective  
 The visitors outgained Wood River by 25 yards on the ground, with fullback Norm Wilfong running effectively for 76 yards in the first half alone.

Slickly fingered, the Warriors fumbled only once in the game, a harmless bobbie even though Wood River recovered, since

## Neighborhood Forums Boon To Democracy

(The following article, by Bill Chambliss, tells of unique discussion meetings—forums—credited with restoring old-fashioned democracy to city government. Results of the first forum, held last week, have indicated passage of a needed tax measure, better informed citizens and a better answer to the familiar question, "What can I do?")

On Aug. 28, voters in Akron, Ohio, went to the polls. They proved a city tax law was a victory not only for supporters of the tax but, in a way, for everyone who believes in government of, by and for the people.

Twice before, an income tax proposal had been rejected over time it passed by a comfortable margin in spite of organized, well-financed opposition. Supporters give most of the credit to Akron's unique experiment in citizen participation, Neighborhood Forums.

Organized in an effort to strengthen the democratic process, Neighborhood Forums are a variation of the New England town meeting.

Each Ward Each Month They are held one month—except during the summer—in each of Akron's ten wards, and everyone is invited to come and talk about local problems and issues. Since the Forums started, early this year, more than 2000 persons have taken part. Thousands more have watched at home, on television.

It was at the Forums that Akron's needs were discussed, the city income tax was proposed, and the city's future was made to circulate petitions to have the tax issue voted on in a special election.

Fifty persons attending the Forums volunteered to serve as Citizens Finance Committee members. Forum participants later were active on the Committee for a Better Akron. They led the campaign for the tax.

**Foster Communication** Nonpartisan, the Forums are intended to be a two-way channel of communication between the people and their govern-

**Service To An Informed Public**  
National Newspaper Week, Oct. 14-20, is being accompanied locally by construction of a two-story office addition to the Press-Record building. This is being illustrated by newspaper, traditional role as the "fourth estate"—the link between judicial, legislative and executive branches of the government and the electorate. Only through an aware, alert and responsible public can democracy function, and this is made possible by a free press.

With news of government as the nucleus, an even broader range of services has evolved. Busy citizens look more and more to their newspapers for news of the community, the nation, the world. This is making locally-oriented publications the fastest-growing segment of the newspaper industry. People throughout the nation are giving increasing attention to detailed reports of events in their home towns—a service to which the Press-Record has been dedicated throughout its 60-year history.

As a life becomes more and more complex, newspaper services are destined to become even more extensive—and more important. With this realization, the Press-Record for a number of years has been gearing for the mechanical capacity and manpower to perform the tasks of today—and to be prepared for the bigger challenges of tomorrow. The expansion currently in progress is part of this program.

**St. Mary's Parish Intervenor With Madison History For Half Century**  
Inseparably linked with the history of Madison is the history of St. Mary's Catholic parish, celebrating its half-century anniversary this year. The church, school and residence facilities of St. Mary's date back to 1912.

For more than half of the five-decade past, the parish has been supervised by Fathers and the present pastor, Father Engelbert Biemek. It was during his assignment here that the large domed church—a structure among the most unique anywhere in the world—was built in 1953 and 1954.

People of all faiths join in recognizing St. Mary's long and devoted service to God and mankind.

**Granite City PRESS-RECORD**  
Price 10c Mon., Oct. 15, 1962

**Wide Range Of Subjects**  
But the Forums are limited to financial problems—or to local problems, for that matter. Already, there have been sessions on urban renewal, juvenile delinquency and the United Nations.

This month's topic will be school boards, and future Forums may discuss such subjects as crime, defense, disarmament and foreign aid.

There's no limit, as far as the forums are concerned. The same, whether the problem is right here at home or involves the world. What the Forums do provide is a means for people to develop and express informed opinions.

"We hope they'll help people get into the people's mind, their freedoms and responsibilities at every level."

**Large Attendance**  
Smith has been encouraged by the attendance at Forums and by the enthusiasm of those taking part.

"There was a blizzard the first night," he said, "and still about 100 people showed up to talk about city finances, not exactly a glamour topic."

Some of the most good ideas, Lufman said, "this spring from several sources and involved a lot of people. I guess the idea was just ripe for something like this, a real city-wide effort to tackle problems and make Akron a better place to live."

**Municipal Finances**  
Problems tackled so far have been those common to many cities: money, money, money. Some of the resulting needs, as listed by the Forums: street repairs, a pay raise for city employees, more police, better bus service, recreational facilities, new sidewalks, new sewers, new street lights.

The Forums drew up a priority list, things that in their view should be done first. A citizen task force reported that Akron would need an additional \$300,000 this year to maintain the present level of services. It became obvious that something would have to be done. The city income tax was the result.

**Power Of The Public**  
This is a new experience for people who have been told they were a problem, they've said, "Why don't THEY do something about it?" The meetings, for example, let them see that they can do something. They find out they can stand up for themselves.

An advisory committee in each ward plans the meetings and arranges facilities. Meetings are held in a variety of places, from homes to schools. Meetings are conducted by a moderator,

with the help of resource people who can answer questions and provide information in various fields.

Mrs. Helen Louise Cullison, a moderator at meetings in several wards, has been surprised by the board cross-section of citizens attending.

"The time from different educational levels and economic backgrounds," she said, "but they're all interested in making their own city a better place and are willing to work for it."

"There isn't a businessman in America who would manage his business the way the Illinois court system is being run today." This is the view of James Rutherford, chairman of the Committee for Modern Courts, which is urging approval of the Illinois judicial amendment Nov. 6.

Duplication, inefficiency and waste obviously are neither economical nor conducive to prompt justice. Because smoothly-functioning courts are essential, support of the proposal by Quad-City voters is recommended.

Most bar associations, both political parties, labor, farm and industrial organizations and women's and civic groups have concluded that courts cannot be put on a business-like basis until the 114-year-old judicial article is streamlined.

Under the revision, the individual could look to one trial court, one appellate court and one supreme court, instead of the present confusing maze. There would be no overlapping—no questions of jurisdiction, a major cause of delay and high cost. The supreme court would have authority to see that the system operates efficiently.

Running on their records, judges would have less dependence on political alliances.

No one questions that dependency, divorce and delinquency are flourishing and that many irresponsible parents are going unchallenged. It is felt that the proposed creation of a family division as part of the circuit court could help conserve family life and foster co-existence of good legal and social practices. The alternative would be continued subsidy of divorces and illegitimacy, with overcrowded institutions forced to do a poorer and poorer job. Children are the victims when coordinated and effective administrative procedures are lacking.

Equal, fair and prompt justice demand corrective measures, as was recognized by 1,589,655 voters in 1958, when a previous amendment lost by only 65,783 out of a total vote of 2,483,158. The 1962 proposal includes several substantial improvements over the previous plan.

You can never tell when a little careful driving will save your life on the highways.

## Venice Crossing Underpass Would Aid Public, Railroads, City

The city of Venice has developed an excellent proposal to solve a traffic bottleneck at the Broadway railroad crossing. Together with Route 151, the new riverfront highway, the underpass can provide uninterrupted flow of traffic to the north, east and west.

State support is a major step forward for the crossing underpass plan, since the federal government's financial aid is guided to a great degree by the wishes of each state.

As outlined by city officials, the proposal involves approximately \$750,000 in U. S. funds, through the cooperation of Illinois and Madison county. The city and railroads are to divide the remaining cost of about \$250,000.

Final details must be worked out, but the plan has merit in that all parties—the general public, city and railroads—stand to benefit. It would fit in well with Route 151 and serve as its business bypass route.

Eliminating the nuisance of traffic delays, a thoroughfare under the tracks near Broadway also would aid the city-owned McKinley Bridge and would give railroads greater flexibility in their local switching operations.

There is no limit to the amount of money some people think the government can spend.

**REV. RAYMOND H. SWITZER**

Rom 8:12—"I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life."

Matthew 5:14—"Ye are the light of the world. A city that is set on a hill cannot be hid."

The scribes and pharisees brought to Jesus a woman taken in adultery and says, "Go and sin no more." Then Jesus said: "I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life."

Light has been defined as rays of light from a tiny dense mass, which objects are rendered visible.

Someone has said that "conversion is an explosion." It is true that only as man has light in himself that he can scatter light.

Atom is made up of tiny electrical particles. In the middle of the atom is a tiny dense mass. Within the nucleus, there are two fundamental particles: protons and neutrons. The neutron, which is a neutral particle. When the neutrons are charged there is an explosion.

There is an old Rabbinical tale that describes Adam's first night in the Garden of Eden and his first fearful encounter with the serpent. It was the evening of the first day. He saw a strange sight—shadows. He could no longer see with his eyes, nor walk surfeited with his feet.

His soul chilled with fear. He clung to the friendly trees with terror in his heart, black as the night itself, until the dawn of the new day brought back the light again and made him know that darkness was not eternal and that his Creator had not forsaken him.

**JAYCEES VIEW TREATMENT PLANT AS INITIAL STEP**  
To the Editor: As "Longtime Resident" remarked (Forum, Oct. 8, 1962) "How nice!" The Jaycees are interested in the city's sewage treatment plant as the initial step of building a pollution plant only.

Well if the "Longtime Resident" would take the time to finish reading an article before he goes on to a tangent about something that he's only read part of... he would have seen that the Jaycees said in their letter that they are interested in the city's sewage treatment plant.

The Jaycees fully realize that a treatment plant isn't the whole answer and that Granite City needs additional sewers. The Jaycees also believe that it is Granite City's problem and that it should be solved by Granite City.

The Jaycees are what you might call the "Youngtowners" of Granite City and would like to go on record now pledging that we will be in there for the long haul. We think right or against what we think is wrong with our town of Granite City.

**SUGGESTS BIBLE READING**  
To the Editor: Read the first ten chapters of the Bible and you can tell how many years Adam had and how Adam was made a living soul.

God breathed into Adam's nostrils the breath of life. Jesus Christ died to take away our sins. Here are five men, named wive, God made each one a new being, no missing link there.

When the animals came from the earth, each one found a mate of his own kind. Noah, his three sons, his wife and their three wives repopulated the earth.

I have worn out two Bibles and am starting on the third. How old was Adam when he died? Eight hundred years. After his third son, Seth, was born, Adam had more sons and daughters.

Read just ten chapters of the Bible and you can see for yourself. How many sons did you find? I have found none over 70.

## Visiting Nurse Association, A UF Participating Agency

The Visiting Nurse Association is another service made available to needy persons of the Tri-Cities by the United Fund. With headquarters in East St. Louis, the service employs nine nurses, two secretaries and a director. It was the first health agency organized in St. Clair County. Its services are available to persons residing in areas covered by the United Funds of the Tri-Cities, East St. Louis and Belleville.

The sum of \$3300 has been approved by the Tri-Cities Area United Fund for work in this area in 1963. The Tri-Cities occupy two-thirds of the time of one nurse, one-twelfth the time of one secretary and assumes a portion of the office expense. While the cost of a visiting nurse service is \$3.25 an hour, all the cost need not be borne by the family of the patient. A sliding scale is used to determine the cost to the individual. Taken into consideration is the weekly income and the size of the family. Actual cost ranges from nothing to the full \$3.25 an hour. The United Fund makes up the difference.

**Available To Anyone**  
The service is available to anyone, regardless of ability to pay, who is acutely or chronically ill or in desperate need of qualified nursing care. The person must be under the care of a qualified physician, however. After the first visit, no other visit will be made unless authorized by the physician. The average visit lasts about one hour. Frequently the visit is to give an injection or change a dressing.

Services offered included bedside care or treatment on an hourly basis; teaching by demonstration in the home the care of the patient; supervision in the care of the patient; demonstration in the care of the newborn; securing of diagnosis and treatment for persons not under the care of a physician (limited to one visit); long-term observation of tubercular patients; suspected tubercular persons and

persons who have been in contact with tuberculars; rehabilitation nursing; the maintaining of sickroom equipment on a short term loan basis; and occupational therapy.

The local visiting nurse is offered to assist those with crippling defects from illness or injury that maximum body use may be regained through instructions to the patient and family as the range of motion. The local visiting nurse is Mabel Harrison, 1653 Fourth Street, Madison, She has served for 14½ years. The association was founded in 1918.

The Visiting Nurse Association is financed by the United Funds of Tri-Cities, East St. Louis and Belleville, patient fees and contract service with the St. Clair County Cancer Society, the St. Clair County Tuberculosis Association, the Illinois Public Aid Commission township relief offices and Pleasant View Sanatorium in St. Clair County.

**Budget Changed**  
The \$3300 budget approved by the United Fund for the Visiting Nurse Association is the same amount allotted last year and the year before.

Last year the sum was augmented by \$1814 in fees from cancer patients. Twenty-five cancer patients required 50 visits; five rehabilitation cases required 42 visits. Three occupational therapy cases required 14 visits. Twenty-eight patients were paid 529 free visits and 14 patients were able to pay partially for 175 more visits. Rehabilitation nursing and occupational therapy are recently added services. Both are handled by nurses with special training in rehabilitation, one a Tusk Institute in New York, the other at the rehabilitation center in Detroit.

near the Chain of Rocks bridge. Other rescue operations already were under way. The alarm had been given to the Illinois state police and the Coast Guard was informed.

The Coast Guard set its rescue system in motion. A cull was placed to the Chain of Rocks Locks 27 and all vessels in the area were alerted. The towboat Eager Beaver was found to be in the immediate area and was asked to make a search.

The Hartford Volunteer Rescue Squad was notified and its ambulance was rushed to the scene. Several messages were passed to and from the Eager Beaver and it was the towboat that reported a pickup had been made. As a result it was erroneously reported by other news media that the Eager Beaver made the rescue.

## Second Meeting Set In Youth Employment Series

"Youth Problems as Seen by the High School Counselor" will be the topic of the second in a series of workshop programs on jobs for youth at 7 p.m. Thursday at Edwardsville high school.

An estimated 40 persons attended the initial meeting last week, according to Malcolm Thompson, Granite City office manager for the Illinois State Employment Service. Thompson is one of the workshop planners.

Dr. David Baer of Southern Illinois University, who will direct the six-session program, told those present last week cooperation is needed among employers and schools, governmental and other employment agencies.

Other topics brought up in-

cluded a need for a school vocational counseling program to begin at a lower level and a need for a closer watch on changes in needed vocational skills.

Future workshop sessions will cover such topics as the role and responsibilities of the state employment service in serving youth, as well as the roles of industry and labor.

Thompson said all workshop sessions are open to the public. Interested persons should feel free to attend any or all sessions, he said, as subjects discussed will not depend on previous meetings.

## Detailed Map Will Be On Display At Rte. 151 Hearing

Detailed right-of-way maps will be displayed at next Friday morning's public hearing here on the routing of the Great River Road (Federal Aid Route 151).

The hearing will be held at 10 a.m. in the Granite City high school auditorium. E. R. Alles, state highway department district design engineer, said the high school was selected because of the great amount of interest in the project. "We expect a large number of persons to attend," he said.

Alles said the hearing is formally, "The right-of-way has been designated but is still subject to change. However, changes will be considered only if the roadway would cause problems with public parks or buildings. The highways cannot be routed because of an individual home," he explained.

The number of homes involved is not known at present, he said. The routing is to skirt the West Granite area cutting across the ends of Roosevelt, Harding, Cayuga and Denver streets. It will proceed south along the Army Depot fence at Cedar street.

The right-of-way will vary from a minimum of 150 feet in built-up areas to 200 feet in open areas. Construction is to include dual 24-foot and 36-foot pavements with a variable width median.

The hearing is to be conducted for the routing south from U. S. Bypass 66-40 to Broadway and Main street in Venice.
